Bekasi, Jawa Barat

Cyber Security student at BINUS University with hands-on experience in penetration testing, security monitoring, and secure web application development through technical projects. Experienced in mobile application security testing, SIEM and log analysis, Python-based threat detection, and security-focused web development, complemented by leadership and project coordination experience.

EDUCATION

BINUS University **August 2024 - Present**

Bachelor, Cyber Security

- Cumulative GPA: 3.51/4.0
- Relevant Coursework: Computer Security Fundamentals, Network Penetration Testing, Software Security, Server and Network Administration, Computer Forensics, Secure Programming, Android Security, Data Structures and Algorithms

SMA Santa Ursula **July 2021 - June 2024**

High School, Natural Sciences

PROJECTS

Mobile Application Penetration Tester

Group Project

- Conducted static and dynamic security analysis of a Flutter-based hospital app using JADX, Apktool, ADB, and HTTP Toolkit, identifying 6 vulnerabilities across authentication, storage, and API security.
- Assessed 1 High-, 2 Medium-, and 3 Low-severity findings using CVSS v4.0 and JWT analysis, documenting impact and remediation in a penetration testing report.

SOC Log Analyzer

Individual Project

- Developed a Python-based defensive security tool to analyze Linux authentication logs and detect suspicious SSH activity using rule-based detection and sliding time windows.
- Implemented multi-stage alert correlation for brute-force attacks, user enumeration, suspicious logins, and privilege escalation, with MITRE ATT&CK mapping.
- Built CLI and CSV incident reporting with configurable thresholds and IP/CIDR whitelisting, achieving 94% test coverage across 28 pytest tests.

Splunk Enterprise SIEM & Threat Intel Lab

Individual Project

- Engineered a local SIEM environment using Splunk Enterprise and Microsoft Sysmon to ingest and analyze Windows security event logs.
- Developed SPL detection queries for MITRE ATT&CK techniques T1110 and T1548, integrating Cyber Threat Intelligence (CTI) feeds via Splunk Lookups to identify malicious Indicators of Compromise (IoCs).
- Built interactive security dashboards to monitor authentication anomalies, IoC matches, and failed login spikes, supporting rapid incident triage and log analysis.

EdTech Platform Development

Group Project

- Built a full-stack math learning platform using Node.js, Express.js, and MySQL, implementing bcrypt hashing, account lockout, and a relational database with 9 tables.

- Implemented server-side input validation across 5 game modes to prevent client-side tampering and refactored 2,770 lines into 10 modular components with XSS-safe output sanitization.
- Developed a Fisher-Yates question randomization engine covering 30+ topics and conducted API and unit testing.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Manager of the Publication and Marketing Division | Commission 2 **February 2026 - September 2026**

HIMTI BINUS University

- Led 50+ members across 4 regions in marketing campaigns, content execution, and brand management.
- Created 20+ digital content assets using Figma and Canva, achieving 500,000+ social media reach.

Advisor of Publication and Marketing Division **March 2026 - September 2026**

HIMTI BINUS University

- Trained 30+ HIMTI Activists in marketing, branding, content creation, and participant recruitment.
- Developed outreach strategies to recruit 100+ participants within tight deadlines.

Chairperson of LDK-CP HIMTI 2026 **April 2026 - June 2026**

HIMTI BINUS University

- Led end-to-end planning of LDK-CP HIMTI 2026 for 150+ participants, including main and follow-up sessions.
- Coordinated 40 committee members across 8 BINUS regions, managing logistics, budgeting, and administration.

Experience Zone Division Committee Member **November 2025 - January 2026**

HIMTI BINUS University x *Codeavour 7.0*

- Promoted KodeKiddo educational products at Codeavour 7.0, generating 35+ sales worth ~Rp60 million through product demonstrations and customer engagement.

Coordinator of Publication and Marketing Division TECHNO 2025 **March 2025 - September 2025**

HIMTI BINUS University

- Led publication and marketing across 8 SOCS regions, generating 100,000+ social media engagements and attracting 500+ participants.
- Led recruitment campaigns that attracted 1,300+ new HIMTI Activists, while developing promotional materials, branding assets, and social media content.

CERTIFICATION

Introduction to Cybersecurity, Cisco, 01 Jul 2026

SKILLS

- **Cybersecurity:** Penetration Testing, Application Security, SIEM, Log Analysis, Security Monitoring, Threat Detection, Security Analysis, MITRE ATT&CK
- **Programming Languages:** Python, JavaScript, SQL, C
- **Web Development:** Node.js, Express.js, React, HTML, CSS
- **Security Tools:** Splunk, Sysmon, Nmap, Burp Suite, Wireshark, JADX, Apktool, ADB, HTTP Toolkit, Wazuh, Kali Linux
- **Development Tools:** Git, GitHub, Docker, Visual Studio Code, Android Studio
- **Soft Skills:** Leadership, Project Management, Teamwork, Communication, Problem Solving, Stakeholder Communication

LANGUAGES

- **English** *Proficient*
- **Indonesian** *Native*
